Get Ready For Winter At Left Coast Diesel!

As the weather cools off, get your truck ready for Winter. Has it been more than 3 years since you did a coolant flush? More than 2 years on the brake fluid? If so, then they are both due! Don't let a lack of maintenance leave you and your family (and 5th wheel...) stuck somewhere. Give us a call and ask about cooling system maintenance or even our inexpensive mileage enhancement packages.

Left Coast Diesel offers all of the standard maintenance and repair services for light diesels as well as mileage and LEGAL performance enhancements.

Services include oil changes, factory-recommended 30k, 60k, 90k and beyond services, aftermarket accessory installation, and dyno testing on our Load Cell Dynamometer.

Have a fleet account? Give us a call, we can service all of your gas or diesel vehicles!

We look forward to serving you!

Erik, Adam, Brett and Dave

For Tow, Show or Go, Left Coast Diesel has you covered!
