Summer is in Full Swing at Left Coast Diesel!

Its finally getting hot out there. Your truck probably came from the factory with 5 year coolant, so check it out and give us a call for a summer time check up. Don't let a lack of maintenance leave you and your family (and 5th wheel...) stuck somewhere. Give us a call and ask about cooling system maintenance or even our inexpensive mileage enhancement packages.

Left Coast Diesel offers all of the standard maintenance and repair services for light diesels as well as mileage and LEGAL performance enhancements.

Services include oil changes, factory-recommended 30k, 60k, 90k and beyond services, aftermarket accessory installation, and dyno testing on our Load Cell Dynamometer.

Have a fleet account? Give us a call, we can service all of your gas or diesel vehicles!

We look forward to serving you!

Erik, Adam, Brett, Kyle and Dave

For Tow, Show or Go, Left Coast Diesel has you covered!

Give us a call at 925.682.8088
